

SHE KEPT THE DOG. YOU KEPT THE WORDS.

This is a crossword book for the man who is doing fine. Completely fine. So fine that he has written fifteen crossword puzzles about it, and every single clue is about her.

Inside: fifteen large-print grids built around the language of the modern breakup, the group chat that keeps you upright, and the dog you still refer to as ours.

Written for adults. Contains drinking, swearing, and one clue about the playlist that will go straight through you.

A perfect gift for a friend who says he does not want to talk about it. He will laugh. He will finish it. He will absolutely not mention puzzle eleven to anyone.
